

# Harmony Easy XVG

Universal Ø60 pre-assembled and pre-cabled monolithic tower lights

## Enjoy universality, flexibility and simplicity with our economic signaling solution

The monolithic tower lights Harmony XVG range are designed for long distance indication of the operating status or sequences of a machine or installation, either visually by means of illuminated signalling units visible through 360°, or

audibly by means of a buzzer. The range is ideal for use in many applications, including metal tools, plastic extrusion machines, SMT, textiles, packaging, baggage handling and assembly lines.

### High Practical Features

Industry standard features, easy to integrate with different machine architectures:

- > Ø60 mm, from 2 to 4 stages
- > Steady light with integral LED
- > 85dB buzzer
- > 24V AC/DC power supply
- > IP42 rating
- > CE certification

### Ergonomic Design

- > Complete clear lens - no reflectance in bright environments Innovative shield design - 100% brightness
- > Compact mechanical structure- Visibility and audibility throughout 360°

### Versatile installation

- > 5 different flexible installation solutions to integrate into machines architectures to meet different applications
- > Eco-design with ROHS, CE
